From Here to Harvard

"Notre Dame helped me discover my passions and challenged me to step up as a leader. I was able to explore many different disciplines, and the faculty supported and encouraged me in everything I tried.

By offering so many extracurricular activities and opportunities to be a leader, along with rigorous academics and intimate classes, Notre Dame helped me define who I am now and fundamentally prepared me to succeed at a competitive university.

I'm glad I chose Notre Dame and I'm proud to be a Notre Dame alumnus."

Driver's Education is offered to students in grade 10 after school

Notre Dame provided me with a great high school experience. Small class sizes meant that I could form personal relationships with teachers and actively learn in class. I am now studying at Boston College, and I feel well-prepared thanks to Notre Dame.
